

"You can not see your reflection in running water, only in still water." Zen Master

Happy official summer! Another birthday came and went this month, thanks for your many birthday wishes, I send you "happy trails" as well. The heat has not arrived to my coastal "hood". This can be tricky for both cooler and very hot temps...please, lots of water and shade for both fur and non fur folks.

Fur Shui and Monkey enjoy blessings in Rome by the Pope!!!!

The fun in Italy continues for Fur Shui and friends. Both my book and the official mascot "Monkey" (tour guide Scott's friend from Walking Tours) were "blessed" by the Pope one cloudy Sunday. See the Pope in the window...2nd window top floor!

WHERE?

Been a busy time! After Italy, I visited with Dexter the dog at his fabulous store; Dexter's Deli in Del Mar, CA for his fun 17th birthday party. If you are local to San Diego, visit Dexter's for healthy food and pet accessories, ask for Dexter! Then off to my own birthday celebration with Fur Shui in hand. Sea, sun, and a day to be "still"!

Next workshop I am giving: Come on over to the Rieki Center of Redondo Beach for a great 1/2 day workshop

of "Feng Shui with an animal's point of view". This will be a fun and practical Feng Shui seminar! Here's the scoop:

Feng Shui (Fur Shui) workshop: Sunday, August 22, 2010, 10AM to 1PM. \$75. per person.

Bring a friend, pay just \$65. per person. The Rieki Center of Redondo Beach. 1848 South Elena Avenue, Redondo Beach, CA 90277.

It's birthday in the sun and sand!

WHO, HOW AND WHAT?

Notable folks to check out and charity event!

For you folks wanting to help pet rescue efforts (esp. up in the PacNW) there are just so many opportunities to contribute. I saw a mention about a wonderful rescue effort while reading a newsletter from "Paternity" (<http://www.paternity.com/>) about a woman named Ginger who runs Ginger's Pet Rescue up in Seattle, WA. (my hometown!) Ginger takes in animals from everywhere. Monthly, she takes a delivery of animals up to Seattle from Los Angeles and has taken animals from several other states. Look her up at: www.gingerspetrescue.org Just was so impressed with her work. Please send in *your* favorite rescue folks to be added to my list!

UPCOMING FUN LOCAL EVENT: If you are looking to contribute locally in the San Diego area and have some fun as well...check out the **THE MUTT MILE & DOGGY COSTUME CONTEST** at the **2010 Coastwise Mile** at La Jolla Cove on Saturday October 2, 2010. Happens once a year and this year proceeds will be benefitting the San Diego Humane Society. The race is all part of a day long fun time with various races with and without pooches, kids, and also some more "serious" divisions. Giving you this advance notice so you can sign up early for less bucks...if you sign up by Sept. 4th...the race fee is just \$27.!!! Here's a short scoop off the website at www.coastwisemile.com: "The Mutt Mile kicks off @ 7:30a, Oct. 2. So bring your canine compadre and run/walk a mile. All dogs must have their shots (and be up to date). And all dogs must be on a leash (8' max length). We will also be having a costume contest @ 7:15am prior to the run (so the dogs don't have to run in their costumes). So come out and have some fun at the park, and stop by the San Diego Humane Society booth. Please note that due to City Regulations all dogs must vacate the park by 9:00am." Get in shape and donate all at once!

Travel time means possible "flight time" for pets.

According to Feng Shui...travel and helpful people is assisted by the color grey. So, if you have travel by road, plane or train...add some silver or grey to the crates, collars and blankets that help you zip around in style and safety. I usually put a small silver bell on my cat's collar to help out! Make sure you know ALL of a carrier's requirements *well in advance* of travel. Here's some info from a recent newsletter from Dr. Stephen Blake with an example taken from Delta Airline: "Specific restrictions on heat/cold and it highlights concerns for certain breeds. Year-round Restrictions: Delta will not accept animals as checked baggage but may ship as cargo during extreme weather if at any point during the animal's trip the temperature is forecast to be: Below * 20° Fahrenheit (-7°C) Above * 75° Fahrenheit (21.1°C) for for snub- or pug-nosed dogs and cats. * 85° Fahrenheit (29.4°C) for all other breeds."

There are further restrictions for pug-nosed dogs and cats...be sure to know these if you have such a pug-nose breed.

Have a wonderful summer, safe travel and long lovely days!
