WHO, HOW AND WHAT?

Some good organic dog shampoo, and some fun summer music.

Your dog is certainly "true blue" to you, now there's a new organic product line that gives you a way to give them back that love in the form of healthy coat, skin hygiene, and pampering. All from the folks at "True Blue". I like the nice smell and organic quality of these products! You can

find them at: <http://www.truebluepets.com> Here's what Doug Gleason, founder and President of "True Blue" has to say: "We're pet lovers here at TrueBlue and we understand what pet lovers want—only the best products for our best friends. We worked with botanists and top vet experts at a leading University to select the best pet-friendly botanical ingredients—for products that are safe, effective, and leave your pet's coat soft, lustrous, and healthier than ever before."

There's some fun and also beautiful music coming from the Canyons in Los Angeles!

I recently met one of the partners, Skip Haynes from "Laurel Canyon Animal Company" in Los Angeles to have a cool ice tea and some interesting conversations about both of our talents. They compose, direct and produce music CD's that are collaborations of their music talents with animal communicators, intuitives, and shaman. Interesting range of music from sing along fun songs that have been tested with dogs by highly respected communicators as well as spiritual CD's that reflect the life and purpose of the Amazon's Pink Dolphins. Check them out at their site:

<http://www.petcds.com/> Let me know what you think...boogy on down with your pets, have some summer fun. Give yourself and your pet the gift of singing along with each other!

Informative Site.

Here's a site that you can really get some neat info on "well being".

I recently was looking up some "symptoms" that I found while dowsing an animal and went straight to the *Doctor Foster and Smith* site. Great site for finding things out about health and well being for all types of pets and animals: *Doctors Foster and Smith Pet Education* is at:

<http://www.peteducation.com/> That being said, always consult your vet or alternative health practitioner before you jump to any conclusions...but at least get some insights before and after a diagnosis is made by a professional!

The Guru Corner:

The simple, but oh so deep and wise advice from Rocky my "Guru Kitty". This month his quote is from Janis Joplin. (He likes this one, was from Speak 18! Worth repeating he says!)

"Don't compromise yourself, you are all you've got." *Janis Joplin*
