

“Spring is nature’s way of saying, “Let’s party!”

*Robin Williams*

Happy Spring to all! Nature has awakened, flowers are blooming, trees leafing out and people and pets getting out into the great out of doors. Remember to always carry extra water for both you and your pet. When hiking with your dog, watch that you keep them ON LEASH so they will not be harmed and remain close by your side. It’s all about safety!

### WHO, HOW, AND WHAT?

**May Day, May Day, the flowers, pollen, and bugs are out...enjoy and be aware!**

Spring has sprung and so have ticks, bees, flowers and trees. Speak has a mission to help you be aware of all that is being birthed: <https://bit.ly/2wb9Dim>:

**According to the Chinese “clock”, it’s Liver’s time to activate...flower essences can bring some calm.** Spring is time for Liver “expression” according to Chinese health beliefs. It’s when pesky “hot spots” and allergic responses to environment are heightened.

**Flower essence calm down for the emotional body:**

**Crab Apple:** Helps with loop behaviors of chewing on healthy body parts to get rid of an itch or bother that an animal cannot reach.

**Yarrow:** Used to calm down allergic responses to environmental stimulus. If Yarrow is called for during a “read”: possible allergies for your fur folk could be both inside and out! For more info: <http://www.fesflowers.com/>

### Shedding for fur folks and fur ball blocks.

The fur is flying, causing fur ball blockages. Brush your pet at least one time per day. Add some pumpkin to their moist food diet and go to: <https://bit.ly/2I47Xz0>
