## WHERE?

I have been sticking close to home, giving some classes online, doing art, re-organizing my home, and staying safe during this Covid time. Taught an online art class: “The art of doodle” for the Carpinteria Arts Center. This is a calming form of repeated patterns originally called Zentangle. A form of art that anyone can do and enjoy!

My “doodle” from last Thanksgiving...graphically calming!

Continuing with my Animal Essence Portrait Sketches. Having fun with all “species” and love this drawing of Fritz (JB Cat Scratch Fever). Fritz just won the 2020 national title: Reserve National Champion 1/2 Arab Pleasure Driving Open in Tulsa, OK!

I will be having a holiday contest offering a top prize of one Animal Essence Portrait...look for announcements in the next couple of weeks!

### Halloween special events at Zoos!

Many zoos during this Covid time are offering fun social distanced celebrations that include animal themes. It is not too late to visit a Certified Zoo this Halloween for safe and fun filled displays and activities during this Covid 2020 Halloween: <https://americanhumane.org/blog/visit-a-certified-zoo-this-halloween/>

## WHO, HOW, AND WHAT?

### The Blue Moon: Oct. 31

This Saturday, Halloween 2020 there is a very rare blue full moon happening. A full moon on Halloween happens about every 19 years. This full

moon is the Hunter's Moon, which is the 2nd full moon for October which makes it a “Blue Moon”. The only double full moon in 2020! This will be the first time since 1944 that a Halloween full moon will be visible at night (weather permitting) in all time zones in the United States. Hunters Moon gets its name from the Native American people who would use the Moon to go and hunt and stock up in preparation for the impending winter.

Spiritually speaking, the Hunters Moon encourages you to go seek out your dreams. (Here's a link that talks about the spiritual meaning of this full moon: <https://bit.ly/2JkDan9>)

### Tips to keep your pets Halloween safe!

Halloween has become a huge holiday, yet there are many fur folks who do not share this “fun”. Dangers are in the “treats” such as chocolate, xylitol, which poison our pets. There is noise and chaos for an animal when doors are opening and closing (non pandemic times!), loud yelling, and unknown new environments being visited. There are many “lost” animals on Halloween night! Electrical wires, decorations, entangle (and “digested” by animals creating blockages) some fur folks. Plus, you also have the “not so nice” crazy people who terrorize our pets around Halloween.

Here are two articles worth reading that help you keep your fur loves safe!

**Smile!** I am now going through dental work with both of my cats with my amazing vet clinic. I am giving my cats some flower essences to calm them (and me!) for teeth cleaning procedure. *Rescue Remedy, Yarrow, Star of Bethlehem, and Aspen.* Diluted for pets! If you use Essences, please email me for the easy dilution recipe.

Very important to keep up your pet's dental care, gives you a good assessment of what's up with their well-being, and good vet dental work keeps them healthy and happy.
